FOREWORD

WARNING: Only Triumph approved parts should be used to service, repair or convert Triumph motorcycles. To ensure that Triumph approved parts are used, always order parts, accessories and conversions from an authorised Triumph dealer. The fitting of non-approved parts, accessories or conversions may adversely affect the handling, stability or other aspects of the motorcycle operation which may result in an accident causing serious injury or death.

WARNING: Always have Triumph approved parts, accessories and conversions fitted by an authorised Triumph dealer. The fitting of parts, accessories and conversions by a dealer who is not an authorised Triumph dealer may affect the handling, stability or other aspects of the motorcycle operation which may result in an accident causing serious injury or death.

WARNING: Always have Triumph approved parts, accessories and conversions fitted by a trained technician. To ensure that a trained technician is used, have an authorised Triumph dealer fit the parts. The fitting of parts, accessories and conversions by personnel other than a trained technician at an authorised Triumph dealer may affect the handling, stability or other aspects of the motorcycle operation which may result in an accident causing serious injury or death.

PART NUMBERS

Part numbers used in this parts catalogue must not be abbreviated or added to in any way. In all cases the complete number, including any prefix or suffix must be quoted on the order.

CAUTION: If the part number appearing on your order is changed in any way from that quoted in the catalogue, your order will be delayed or rejected.

The first 3 digits of a part number identify the component/system area of the motorcycle from which they are derived. For example, a part beginning with the numbers 202 will always be a braking system part. The table below gives an overview of this numbering system.

No:	Area	No:	Area	No:	Area	No:	Area
110	Crankshaft	120	Balancers	201	Rear Wheel	250	Electrical
111	Connecting Rods	121	Lubrication	202	Brakes	270	Lighting
112	Pistons	122	Aux.' Gears	204	Fork/Handlebar	300 to 375	Fixings, rivets, flanged sleeves, washers, circlips, nuts, bolts, tape, studs, bushes, socket screws, inserts, clips, ties etc.
113	Valve gear	123	Sump	205	Rear Suspension		
114	Camshaft	124	Carburettors	207	Frame		
115	Cylinder Head	126	Engine Covers	208	Foot Controls		
116	Crankcase	129	Ignition System	210	Cooling System		
117	Clutch	130	Alternator	220	Airbox/Exhaust		
118	Gears	131	Starter Motor	230	Bodywork		
119	Gear Selectors	200	Front Wheel	240	Fuel System		

VIN NUMBER

In some cases, correct selection of a part depends on matching of the vehicle identification number (VIN) of the motorcycle to a range of VIN numbers in the catalogue. It is essential that the VIN number be correctly matched with the information given in the catalogue in order to make correct selection of spare parts. Generally, only the final six digits of the VIN number will be required. The VIN number can always be found in two places on the motorcycle.

- **OUTSIDE USA:** The vehicle identification number is stamped into the right side of the steering head, and can also be found on the VIN plate which is riveted to the frame immediately behind the steering head.
- **USA:** The vehicle identification number is stamped into the right side of the steering head. The vehicle identity number is also printed on a label on the steering head.

1. VIN Number

ENGINE NUMBER

In some cases, correct selection of a part depends on matching of the engine number of the motorcycle to a range of engine numbers in the catalogue. It is essential that the engine number be correctly matched with the information given in the catalogue in order to make correct selection of spare parts. The engine number can always be found stamped on a casting feature in the upper crankcase. The feature is located just above the clutch cover on the right hand side of the motorcycle.

1. Engine Number

COUNTRY CODES USED IN THIS PARTS CATALOGUE

Where necessary, a two letter code is used to denote parts which are applicable to one or more countries. Where a country code is used, the parts concerned must only be sold within the country concerned. The codes are as follows:

CODE	COUNTRY	CODE	COUNTRY
AR	ARGENTINA	JP	JAPAN
AU	AUSTRALIA	MY	MALAYSIA
BR	BRAZIL	NL	HOLLAND BELGIUM
CA	CANADA	PT	PORTUGAL
CH	SWITZERLAND	SE	SWEDEN
CY	CYPRUS	SG	SINGAPORE
DE	GERMANY	TH	THAILAND
ES	SPAIN	NO	NORWAY
FR	FRANCE	NZ	NEW ZEALAND
GR	GREECE	UK	UNITED KINGDOM
HK	HONG KONG	US	UNITED STATES
IT	ITALY	ZA	SOUTH AFRICA

IDENTIFICATION WITHIN USA

In some cases, parts denoted as for the USA may be specified as applicable only in certain states. These state by state applications are annotated as follows:

US Applicable to all states.

US 49 state Applicable to all states except California.

US CAL Applicable only in the state of California.

WARNING LABELS

Certain parts of the motorcycle carry warning labels for the advice and guidance of the rider. Please ensure that where a component which carries a warning label is ordered, the appropriate warning label is also ordered, fitted to the host part, and supplied to the customer.

WARNING: Failure to supply and fit a warning label as directed above may ultimately lead to a dangerous riding condition resulting in an accident causing serious injury or death.

PARTS CATALOGUE FORMAT

The parts catalogue consists of a series of numbered sections which contain parts information on related component groups. There are 14 of these sections in the parts catalogue.

Each model within the Triumph range is allocated a separate parts catalogue. Because of this, it is essential to order parts from the catalogue which is specific to the model being repaired, converted or serviced.

WARNING: Ensure that the correct catalogue has been used before ordering parts. Selection and subsequent fitment of parts from an incorrectly selected catalogue may affect the handling, stability or other aspects of the motorcycle operation which may result in an accident causing serious injury or death.

In all sections, the parts are illustrated on the left hand (even numbered) pages and the key to the illustrations can always be found on the right hand (odd numbered) pages.

Remember, in some cases, all the parts depicted in an illustration cannot be described on the page facing the illustration. In this case, the information is continued on the next pair of facing pages and the illustration repeated.

Refer to the following page for an explanation of the illustration above

PARTS CATALOGUE FORMAT

- A Model** Indicates the model to which the catalogue applies (see warning on previous page)
- B Page Title** Indicates the group of components which appear on the page
NOTE: In some cases, the title bar will also give further information about the components on the page. This additional information may refer to such things as colour, engine cylinder configuration or VIN/Engine number range. Always pay particular attention to the title bar for this additional information.
- C Part Number** Indicates the part number to use when ordering spare parts. Remember that all the number, including any prefix or suffix, must be used when ordering.
- D/H Reference Number** Links the illustration to the part number. The reference number will be repeated if there is more than one choice of part with the same reference number. Remember the illustration is for visual recognition only and may differ in minor detail from the actual part.
- E Additional Information** In this column various additional information will be given. This information may include:
- the markets (countries) in which the part may be applied
 - the VIN or engine number range to which it may be applied (this may be in addition to VIN or engine number information already given in the title bar)
 - colour information
 - other essential information
- VIN/engine number information is given as follows:**
- 3000 indicates a part that may be used on motorcycles up to and including VIN/engine number 3000.
 - 3001 - 4000 indicates a part that may be used on motorcycles from VIN/engine number 3001 up to VIN/engine number 4000 (including VIN/engine numbers 3001 & 4000).
 - 4001 - indicates a part that may be used on motorcycles including and beyond VIN/engine number 4001.
- NOTE:** to differentiate engine numbers from VIN numbers, engine numbers will always be written in *italics* and will carry the prefix 'eng No'. VIN numbers will not be prefixed. For example:
- 3000 can be identified as a VIN number as it has no prefix and is NOT written in *italics*.
 - eng No 3000 can be identified as an engine number as it has the 'eng No' prefix and IS written in *italics*.
- NOTE:** where no VIN/engine number range is specified in either the title bar or in the space for additional information, the part is applicable to all VIN/engine numbers.
- F Description** Gives a brief description of the part.
- G Quantity** Indicates the quantity per motorcycle. The quantity ordered need not reflect this quantity and the information is given as a reference guide only. Where the same part is used on both 4 and 3 cylinder engines, the first quantity given is for the 4 cylinder version.
- J Page number** Page numbers are always prefixed by the section number. For example, the page number 4-16 indicates page sixteen of section four. Each section is numbered from page 1 which will always be the index to that section.
- K Arrow** Indicates the orientation of the parts in relation to a complete motorcycle

PAINT CODES

In certain instances, though not always, a part number for a painted panel will be followed by a two letter code which denotes the panel colour. When ordering painted panels it is essential to include these code letters in your order. The following paint colour codes are included in the Triumph range of parts catalogues:

CODE	COLOUR	CODE	COLOUR
